

NEWSLETTER

July 2012

Dear All!

Until we don't have an interactive online platform to keep you informed, I start to send the monthly INSHS Newsletter to you. The content of the Newsletter is and will be based mainly on the information which I have got (will have get) from you: the Contact Persons, Board Members and the Sub Group Chairs. But I also make efforts to collect useful information for you. I also report about my activity to you. I would like to ask all Contact Persons, Board Members and Sub Group Chairs to send me information regarding :

- Erasmus mobility
- Reserarch projects
- Erasmus Mundus Projects and other LLP projects
- Publication possibilities
- Scientific Events and Sport Events etc.

in connection with his/her university. Please send these info not just for me, but also for Benjamin (benjamin.jaeger@st.ovgu.de) as well.

Please remember: running INSHS should be a team work , where I need your help and cooperation continously! I hope that you liked Newspapers! A couple of you(the contact persons!!!) forgot to send me back the required documents:

- 1.) The **Joining Agreement** (signed by the responsible person on your university)
- 2.) The **Faculty Data Sheet** (with the email availabilities and academic background of your members of staff)

Please send these back to me asap. Am grateful for those who have already sent me these back!

Coordinator of INSHS and Editor of the Newsletter

INSHS issues:

I started to collect information about the **potential change our network status to an association** as the General Assembly suggested and required. I have consulted with lawyers regarding this issue.

IMPORTANT:

Here is the email address of Benjamin. He is the person, who will update and upgrade the webpage of INSHS.

benjamin.jaeger@st.ovgu.de

From now on, please send every information to me (**dancs@mnsk.nyme.hu**) to him and to me as well. I will put the info on the Newsletter as well. To be honest we would be happy to have more information from the contact persons, sub-group chairs and board members. I kindly ask you to feed us with useful information regarding your university, your academic international activity, events etc. Thank you!

I have started to work on an interactive web platform called **SportProfNet** which may help the communication between academics (staff) and students on the field of sport science. I hope to introduce it already in October.
